

## FROM THE TOP TEACHERS

*SkyTrak allows my students to practice, test, measure and play, all while having FUN! From game improvement to simulation, SkyTrak truly adds another dimension to instruction and entertainment.*

**Joe Hallett, PGA Professional**  
GOLF Magazine Top 100 Instructor

*It's incredibly accurate. I can't believe how simple it is to use. The graphics are fantastic. It looks like you're really out there on the range hitting balls.*

**Hank Haney**  
World Renowned Golf Instructor

## TO THE MOST EXCLUSIVE CLUBS

*SkyTrak is the best-value golf product on the market - in any category.*

**Kieron Stevenson,**  
Head Professional  
Royal Troon Golf Club

*Our members appreciate that SkyTrak is another amenity which is included in their monthly dues. It works with our ethos of balancing golf club culture and tradition, with what is relevant in today's golf industry.*

**Josh Paris, General Manager**  
Old Town Club

## MORE THAN A LAUNCH MONITOR, MORE THAN A SIMULATOR, IT'S THE BEST OF BOTH.

[WWW.SKYTRAKGOLF.COM](http://WWW.SKYTRAKGOLF.COM)

SkyTrak is a revolutionary system that will make a huge difference in the way you play the game. It provides the accuracy and reliability of commercial launch monitors at only a fraction of the price. Tee it up rain or shine, 365 days a year - you play golf on your own terms.

**SKYTRAK™**  
REAL GAME • REAL RESULTS

## WHY CHOOSE SKYTRAK?

### PROFESSIONAL-GRADE RESULTS AT A REASONABLE COST

It's the same technology the pros use. With all the advantages of a professional launch monitor, SkyTrak will help you improve your game with accurate, measured data and a visual representation of every shot.

### KNOW YOUR GAME

Like many other sports, swing mechanics and properly fit equipment are critical to success. Learn how changes in your swing or equipment affect your distances, shot shape and trajectory.

### FORGET ABOUT THE WEATHER

SkyTrak gives you the ability to create your own indoor simulation environment for practice on our virtual driving range and 3D course play that allows you to improve your game and play golf anytime without being affected by weather conditions.

### PREPARE FOR COMPETITION

Do you have an important event or tournament? Prepare in advance: fine tune your short game in our Skills Assessment and work on your iron play with Target Greens on the virtual driving range. Benchmark and track your performance from the comfort of your home.

## LAUNCH DATA PARAMETERS

11°

LAUNCH ANGLE

SIDE ANGLE  
DEGREES

### ACCURATE

SkyTrak uses high-speed photometric analysis to measure the golf ball and provide an accurate reading of your ball speed, launch angle, and spin rates.

### AFFORDABLE

Practice anytime, anywhere and save on trips to the range with the knowledge that you are getting the accuracy and power of a high-end system at a fraction of the cost.

### PORTABLE

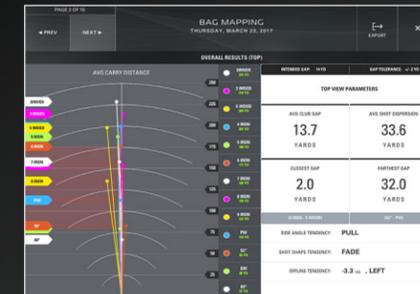

SkyTrak goes where you go. Whether you are at home or on the range, simply connect to your iPad, iPhone or PC with SkyTrak's built-in Wi-Fi.

### ENTERTAINING

SkyTrak makes practice fun with skill-building games, challenges and target greens on the range. Compete against your friends or your personal best while you sharpen your skills.

## HOW CAN YOU USE SKYTRAK?

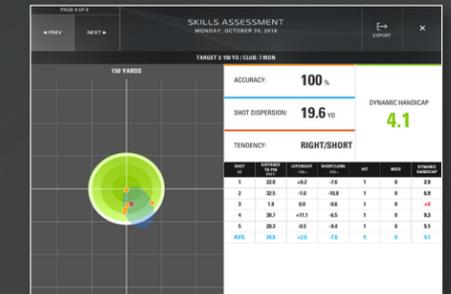

Whether you are practicing, playing 3D courses, giving a lesson, or looking to make a change in equipment, SkyTrak has something to offer for every player of the game. Dial in the distances for each club in your bag using the Bag Mapping feature, compete with yourself or others in fun and engaging SkyTrak Challenges, or use the Skills Assessment to identify strengths and weaknesses in your game and track your progress over time.

### BAG MAPPING

### TARGET CHALLENGE

### SKILLS ASSESSMENT

### DRIVING RANGE

Practice on your own virtual driving range.

### NUMERIC SCREEN

Focus on the numbers out at the range.

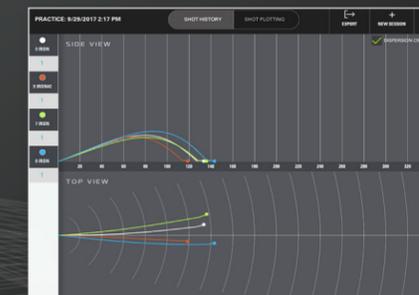

### SHOT HISTORY

Save, review and analyze your history.

### PRACTICE GREENS

Fine-tune your irons at any distance.

### SHOT PLOTTING

Compare clubs to get the right new equipment.

### CUSTOMIZE

Adjust playing conditions for greater realism.
